DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see Pages 13-15, filed June 27, 2005, with respect to Claims 1-40 have been fully considered and are persuasive. The rejection of claims has been withdrawn.

Allowable Subject Matter

2. Claims 1-40 are allowed.
3. The following is an examiner's statement of reasons for allowance:

With regard to Independent Claims 1, 27, and 33, the applicant has sufficiently amended and narrowly defined a liquid crystal display, wherein a plurality of wires are attached to wire fixing plates which are further attached to a case that supports a plurality of fluorescent lamps, whereby said wires are attached to the case for absorbing and dissipating heat generated from said lamps. The closest prior art of Ukai et al. (U.S. Patent 6254244) fails to teach or suggest the plurality of fluorescent lamps being positioned to directly emit light onto the liquid crystal display panel. Lastly, since the prior art fails to teach or suggest the combination of structural elements disclosed and claimed herein, all subsequent dependent claims are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
